 **MADE IN INDIA**

ABOUT PARÉ

PARÉ Innovations is a leading player in the building material segment, specializing in top-notch surfaces for ceilings, walls and facade systems.

At PARÉ, we take immense pride in being at the forefront of innovation, introducing groundbreaking surfaces that have never been seen before in India. With our commercial base in Mumbai and our state-of-the-art manufacturing facility located near Vapi, Gujarat, PARÉ is strategically positioned to serve the needs of our valued customers. Our founders have deep roots in the building material industry, which has propelled us to become pioneers in the Innovative Products revolution.

MANUFACTURING

PARÉ Innovations prides itself on its state-of-the-art manufacturing unit, which utilizes advanced European technology to manufacture products of superior quality. It has launched quite a few products, being the first manufacturer in India for most of them and First Time in the World for some products.

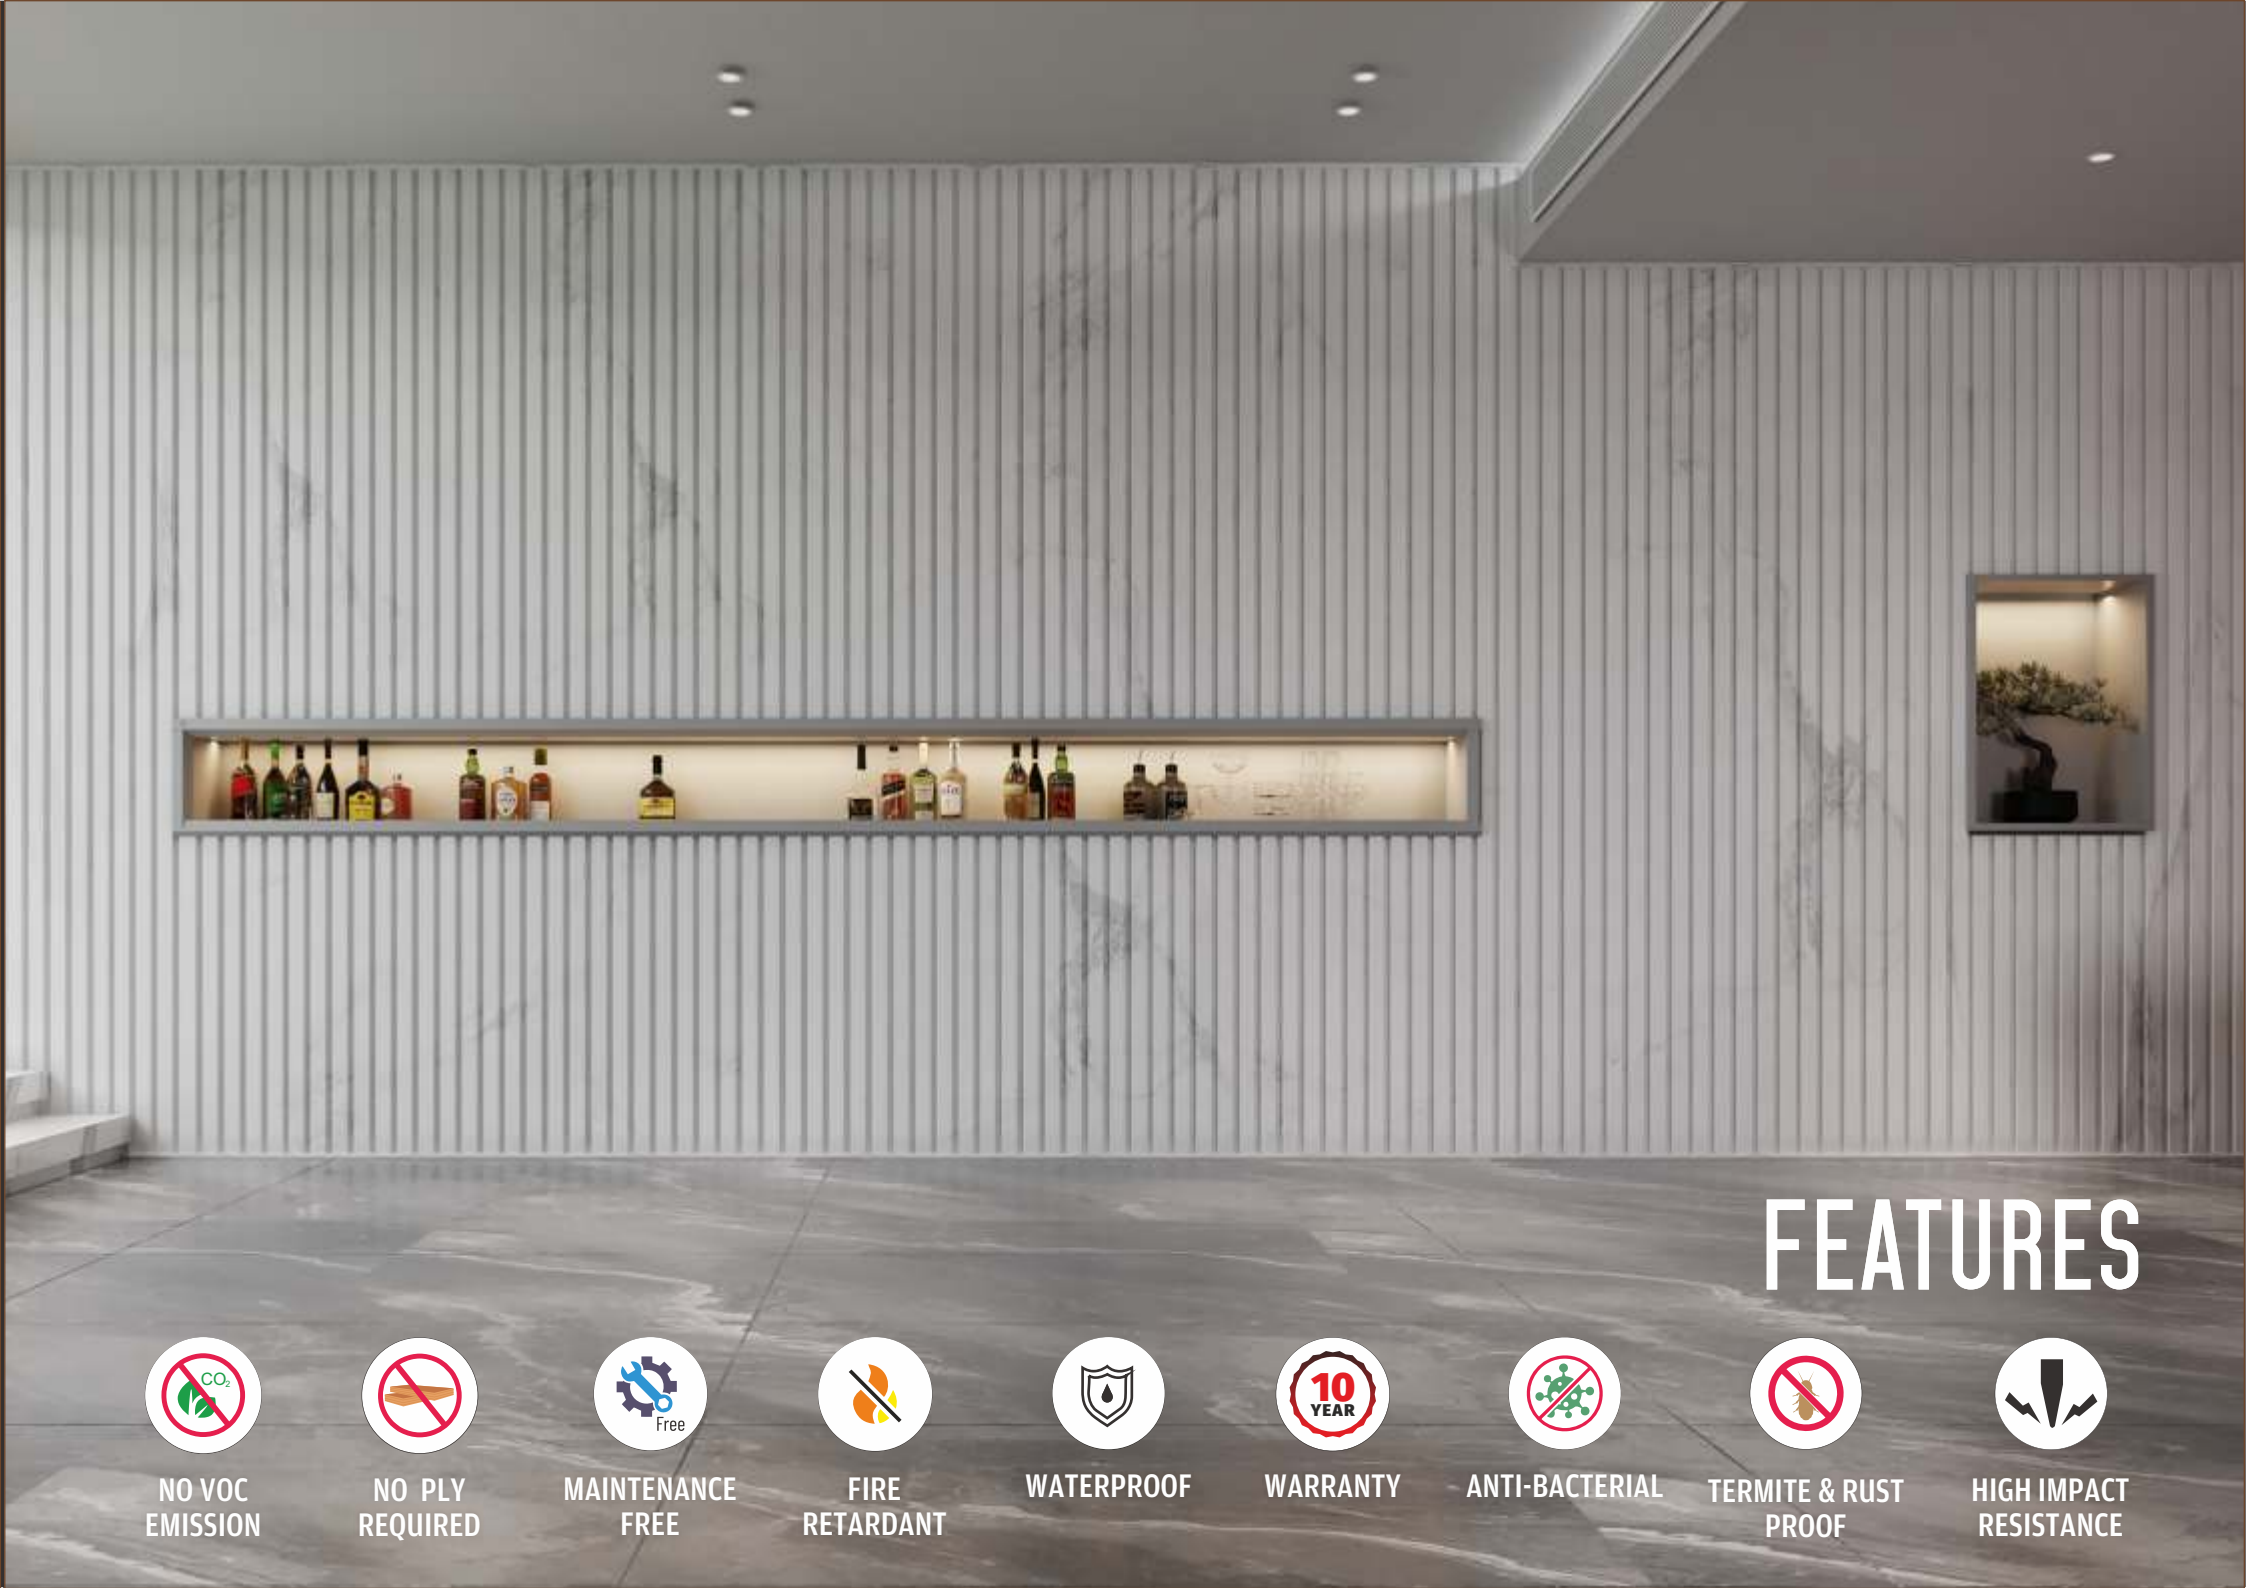

PARÉ Innovations has been a pioneer in introducing many new products to the Indian market. PARÉ Innovations commitment to quality and innovation has helped it become a leading and dominant player in the building material industry.

UNIQUE INTERLOCKING SYSTEM

Introducing the revolutionary Unique Interlocking System - the future of ceiling & wall paneling! With its innovative design, these panels seamlessly interlock with one traditional wall paneling. The Unique Interlocking System ensures a flawless fit every time, leaving you with a professional-grade finish that will elevate any space.

The Unique Interlocking System is not just a practical solution - it's also a design statement. With a wide range of colors and textures available, you can choose a style that perfectly complements your decor, adding a touch of elegance and sophistication to your space.

NO PLY REQUIRED

YOU CAN DIRECTLY SCREW THE PANELS TO YOUR WALLS

Introducing our innovative wall panels that provide unparalleled convenience. With their unique design, they can be effortlessly screwed directly onto any wall, making installation a breeze and transforming your space in no time.

NO VOC EMISSION

Experience a greener future with our innovative wall panels, boasting no VOC emissions. Breathe easy knowing that our eco-friendly panels not only enhance your space but also contribute to a healthier environment for generations to come.

ORIENTATION

PARÉ Louvers is designed to be used in both vertical and horizontal orientations. This innovative feature grants you the freedom to explore your creativity and bring your vision to life like never before.

When used vertically, Louvers systems create a striking and dynamic statement. The vertical orientation adds height, elegance, and a sense of grandeur to your surroundings.

In horizontal orientation, Louvers systems offer a fresh perspective on design. The horizontal placement adds a sense of calmness, sophistication, and a modern touch to your environment.

No matter which orientation you choose, Louvers systems are engineered with precision to ensure a seamless integration into any space. With their sleek design, durable construction, and easy installation, Louvers systems are designed to make your project a breeze. Explore the possibilities and redefine your surroundings with our exceptional collection of Louvers systems.

SIZING

Sizing in mm**

CUSTOM SIZING

Due to **PARÉ**'s state of the art facility, we can offer custom sizing with a minimum order quantity (MOQ) of 10,000 Sq.ft.

With this, you can increase the length of the **PARÉ** Louver Panels to the size you require. For retail consumers, this will yield a seamless look for your surfaces whereas for commercial consumers, custom sizing reduces the wastage percentage by a good margin while maintaining a seamless look.

TECHNICAL DECLARATION

PRODUCT TEST DATA

Impact resistance:	No deformation observed. (Tested at 50 LBS)
Tensile strength, MPa:	>37.0
Tensile modulus, MPa:	>2000
Surface distortion:	None at 120F
Length:	Within ¼" of specification
Lock control:	Complies
Color Change:	<2 greyscale (16 hrs under 1200W/m2 UV radiation at 50 degrees)
Squareness	<1/8" of square
Thickness	1.2 mm

PRODUCT SPECIFICATIONS:

Meets or exceeds the standard specification of (ASTM D-4477) and its referenced documents. Where not defined in ASTM D-4477, our products also meet the stringent quality control parameters of **PARÉ**.

RELEVANT CODES AND REGULATIONS COMPLIANCE:

Conforms to ASTM Specifications D-4477.

Color: Uniformity is spectrophotometrically controlled.

Lock: Optically measured and controlled.
